

Short

Long

Available in 2 sizes Short or Long the “Rhino J-Bolt” is a quick and easy 4WD accessory that allows you to safely, secure a spare wheel to a Rhino Heavy Duty Cross Bar, freeing up much needed cabin space and maximising your carrying capacity. Easy to use, the J Bolt works by hooking around the underside of a Heavy Duty Cross Bar, the bolt is then feed up through the wheel stud hole and fastened. The cross bar position will need to be adjusted to allow a suitable width to rest the spare wheel on.

- Very easy to fit.
- Fits most spare wheels.
- Increases storage space.
- Great for transporting that extra spare wheel when traveling to the outback.

Recommended on the Rhino Heavy Duty Cross Bar the J-Bolt will fit other cross bars up to a width of 40mm.
